South West Occupational Health Services (SWOHS) is a locally owned and operated Occupational Hygiene consultancy based in Western Australia, specializing in all aspects of occupational hygiene including identification, assessment, monitoring and control of workplace hazards and exposures.

We have been assisting in creating healthier workplaces in the mining, manufacturing and other industries since 1999.

Our team of dedicated and experienced staff offer you a professional, flexible and prompt service, tailored to suit your individual requirements. All SWOHS services are carried out to exacting standards in accordance with relevant legislation, Australian standards and guidelines.

ATMOSPHERIC CONTAMINANT SAMPLING

Qualified Ventilation Officers available to carry out contaminant monitoring at any location, including weld fume and asbestos.

RESPIRATORY PROTECTION

Experts in creating comprehensive respiratory protection programs including a fully mobile respirator fit testing service.

Qualified and experienced Hygienists available to evaluate all workplace hazards and recommend control measures.

OCCUPATIONAL NOISE

Leaders in all aspects of noise management, including the newly developed earplug fit checking technology. Qualified Noise Officers available.
